Submitting for the Project Review

Before any new dwelling structure, addition or site improvements are issued a building permit; the application must be reviewed by the Building Official.

If a proposed project needs to be reviewed by the Planning Commission or Board of Zoning Appeals, the applicant will need to fill out the appropriate request to be on the next Planning Commission/Board of Zoning Appeals agenda. The owner or owner's representative will need to be present for the meeting. Planning and Zoning meetings are held on the first Monday of the month unless otherwise scheduled. In order to be on the meeting agenda, plans must be submitted by 3:30 pm on the Monday three weeks prior to the next scheduled meeting.

1. The following is required for the Planning and Zoning submission:

- a. *Application for Residential Building Permit Pre-Plan Review.*
- b. Review fee (see fee schedule).
- c. Two (2) complete sets of plans, elevations and site layout. Provide a pdf file of all submittal materials emailed to building@morelandhills.com.
- d. If the plans/documents are larger than 11"x17" and you are unable to provide files on pdf, submit (3) complete sets.
- e. Photos of existing area(s) where project will take place.
- f. Photos of houses surrounding the lot for architectural comparison.

Note: Planning Commission (PC) or Board of Zoning Appeals (BZA) approval is not a license to build. After PC or BZA has approved the project, two (2) complete sets of construction documents, complete with any changes must be submitted to the Building Department for review for code compliance with the Residential Code of Ohio.

Submitting for Building Permit Plan Approval

All plans submitted shall bear sufficient information to determine compliance with Village of Moreland Hills and the latest addition of the Residential Code of Ohio (RCO).

Buildings or structures located in flood hazard areas must contact the Village of Moreland Hills Engineer's Office before applying for a building permit.

The following is required for Building Permit Plan Approval:

Fill out the ***"Application for Residential Plan Approval"***. You are required to select one of the three (3) methods to show energy compliance. (Page 4 and 5)

Fill out the ***"Ohio Residential Plan Systems Description Form."*** (Page 6)

Provide a copy of evidence of approval for sanitary sewer connection or household septic treatment system from the Cuyahoga County Board of Health.

Submit two (2) complete sets of construction documents (complete with any changes from the PC or BZA meeting) along with the associated forms. The following submission shall include information necessary to determine compliance with the code. (Full description of the requirements per Section 106 of the Residential Code of Ohio)

- Index
- Site Plan
- Floor Plans
- Exterior Wall Envelope
- Sections
- Ratings
- System Descriptions
- Additional information

The following information is required for Site Plan Approval:

Submit two (2) plans containing the following information:

- Stamp and Seal of Professional Engineer of Surveyor
- Benchmark ties to CRGS elevation datum
- Adjacent home and setbacks from property lines and Right of Way
- Label parcel size, property line distances, bearings and corner markers
- Size and location of utility and sewer connections
- Sewer inverts of upstream and downstream manholes
- One foot contours for flat lots, two foot contours for hilly lots
- Basement, first floor and garage elevations. Provide spot elevations at house corners.
- Drive culvert size and type. Provide elevations for catch basins in yard or driveway.
- Sanitary details for lots with sewer connections. For lots with sanitary sewer connections, include note "Contact Village Engineer 48 hours prior to installation of sanitary sewer to arrange for inspection."
- Storm Water Pollution Prevention Plan (SWP3) conforming to Chapter 1520 of the Codified Ordinances
- For projects with greater than 1 acre of disturbance or less than an acre but part of a larger common plan of development or sale, compliance with the OEPA General Storm Water Permit Construction Activity OHC000005 or latest version. This requires post-construction BMP's to be designed.

Inspection Requirements

- **Job Site Address** must be posted during entire construction project.
- **Approved Job Copy construction documents must be available on all jobs for the required inspection.** If approved construction documents are not on the job site, a re-inspection may be scheduled. A fee will be assessed for re-inspections.
- **Re-inspection Fees** – A re-inspection fee will be charged when the inspector must return to work that was not ready, building was locked and inspector could not gain access, approved construction documents not on site, and / or had failed a previous inspection. Fee must be paid prior to scheduling final inspection, or if two (2) fees are assessed on a project, fees are due before the next inspection is scheduled.
- **Scheduling Inspections** – Contact the Building Department at 440-248-1188 Monday through Friday between the hours of 8:30 am – 4:00 pm. The office is closed for lunch between 12:30 – 1:30 pm.

There is a minimum 24 hour notice for all inspections. Please be prepared to give the following information when scheduling your inspection:

- **Permit number**
- **Contractor**
- **Contractor contact name**
- **Phone number**
- **Type of inspection**

Required Inspections

(Full description of the requirements for the inspection per Section 108 of the Residential Code of Ohio)

- Lot Line Markers
- Footers or Foundation Inspection
- Concrete slab and under-floor inspection
- Lowest Floor Elevation inspection
- Frame Inspection
- Lath or gypsum board Inspection (fire rated assemblies only)
- Fire-resistant penetration Inspection
- Energy efficiency Inspection
- Testing of residential building service equipment

Note: Manufacturer's installation instructions must be on site at the time of inspection for all equipment and appliances.

Other Inspections

- **Fence post hole inspection:**
 - Upon completion of footing forms, reinforcement, etc., but before placing and concrete.
 - It is the property owner's responsibility to verify the property lot line locations.

- **Roof inspection:**
 - **Ice Guard Inspection:** After Ice Guard is applied but before any roof coverings (shingles) are installed.
 - **Final Inspection:** For re-roof projects a final inspection is required. For all other projects a final roof inspection can be performed at the time of the final building inspection.

- **Demolition inspection:**
 - **Clean Hole Inspection** – If a structure being demolished has a foundation, an inspection is required after all concrete, stone, masonry etc. has been removed from the hole and before any clean backfill is placed.
 - **Final Inspection** – A final inspection is required after all demolition debris, driveway (if applicable) and any other materials from the structure have been removed and all areas disturbed by the demolition are reseeded and prepared for new grass growth.

- **Final inspection:**
 - Upon completion of all phases of any construction. Final inspection approval is required upon completion and compliance with all phases of any construction **prior to occupancy.**
 - After payment of any re-inspection fees.

- **Miscellaneous inspections:**
 - **Engineering:**
 - Engineer to review and approve site plan.
 - Engineer to inspect and survey the property after footers have been constructed but prior to construction of any walls.
 - Engineer to inspect and survey the property after first floor deck has been constructed.
 - Engineer to inspect and survey the property after final grade has occurred.

- **Certificate of Occupancy:**
 - Certificate of Occupancy will be issued after the following is completed and confirmed.
 - Final Inspection has been performed and construction is confirmed to be in compliance with the Approved Construction Document / Certificate of Plan Approval.
 - Final Grade / Drainage approval from the City Engineer.

CONTRACTOR REGISTRATION

- Contractors must register annually using the appropriate form provided by the Village of Moreland Hills Building Department. **Note: All contractors doing work within the Village are required to register with the Village no matter if they are performing Residential or Commercial work.**

- The following contractors are registered annually (January – December) at a fee of \$100:
 - **Electrical** – requires copy of State of Ohio Electrical License
 - **HVAC** – requires copy of State of Ohio HVAC License
 - **Plumbing** – requires copy of State of Ohio Plumbing License
 - **Gas Piping** – requires copy of State of Ohio Plumbing or HVAC License
 - **Note:** a registered HVAC or Plumbing contractor can install gas piping and obtain any required permits for gas piping.
 - **Fire Safety** – Includes; Fire Alarm, Fire Suppression & Fire Sprinkler. – requires copy of State Fire Marshal company annual certificate.
 - **General** – All other contractors not listed above. (Example - General Contractors, Roofers, Excavators, Septic, Concrete and Paving, Tree Trimming/ Removal, Painting, Siding & Windows, Etc.)

- **Registration Requirements:** Registrations are valid January 1st – December 31st of each year. The following items must be received at one time in order to process registration request.
 - Registration application form.
 - R.I.T.A. TAX Form.
 - \$20,000 Bond – Standard form from your insurance co. Bonds must expire on December 31st, of current year. **Fax copies will not be accepted.**
 - Note: If applying for multiple registrations (i.e. more than one trade), the total amount can be on one bond.
 - Certificate of Liability Insurance: (List Village of Moreland Hills as additional insured) **Fax copies will not be accepted**
 - \$100,000 - \$300,000 Liability Insurance.
 - \$50,000 Property Damage Insurance.
 - \$100 Registration Fee. Make checks payable to the Village of Moreland Hills.
 - Note: If done VIA mail, please enclose a self-addressed stamped envelope.

- **Chagrin Falls Township:** A separate registration is required if you are performing work within the Chagrin Falls Township.

Incomplete registrations will not be processed. Failure to comply with the above request will be subject to the penalties provided in Section 1331.09 of the Village of Moreland Hills Codified Ordinances. Failure to be registered and still work in the Village will result in a STOP WORK ORDER being issued by our Building Official and you will also be charged double when applying for registration and the cost of the permit.
